[Interested in this product? Contact us for wholesale pricing!!!](#) The BCL-IP200MP is an advanced IP security camera designed for outdoor use. It contains a reduced-instruction set CPU (RISC) that gives it the strength to function on its own and communicate with compatible cell phones and networks. It provides high definition streaming video output in a variety of compression formats and has microphone and speaker connectors for 2-way communication. Image pickup starts with a 3.6-16mm manual varifocal lens (megapixel rated). A 1/3-inch CMOS 2M video sensor generates high definition, 720P images at up to 30 frames per second, which can be adjusted through on-board controls (brightness, color, etc.). You can order it with or without a video output connector (composite video), which aids setup and installation as well as troubleshooting tasks. An (optional) on-board SD card gives it the ability to save images automatically in the event of a network failure or other unpredictable event. The camera can also trigger an alarm (through the relay output). Video Sensor: 1/3-inch CMOS (2 Megapixel) Video Quality: HD 720P @ 30 FPS Lens: 3.6-16mm varifocal, Megapixel rated DC Auto-iris Support: Yes RAM: 256M Triple video stream capability Up to 30fps H264, MPEG4, JPEG compression 2-way audio support RJ45 LAN connector with link/communication LEDs Motion detection Privacy mask - 3 zones Video Resolution: 1600x1200, 1280x1024, 1280x960, 1280x720, 800x600, 640x480, 320x240, 176x144 SD card support LAN/Internet remote viewable Protocols: HTTP, TCP/IP, UDP, SMTP, FTP, Ppoe, DHCP, DDNS, NTP, UPnP, 3GPP Internet explorer viewable Power over Ethernet: built-in Optional mechanical IR filter
